Dear Sir / Madam,

With this letter we would like to inform you about an immediate change of pricing, product availability and lead times at Müllenbach. Due to capacity problems, our main foundry can temporarily no longer meet our needs for claw, sandblast and mortar couplings. Since it is of course important to us to continue to supply you reliably as usual in the future, we will, as has already been done in the recent past, fall back on Lüdecke couplings.

It is important for us to supply you with consistently good quality, which we can ensure with this step. As soon as the market situation allows, we will of course immediately supply you with our own Müllenbach products again.

Existing stocks of our products will of course still be sold.

Due to the still very tense market situation and a price setting that changes almost daily as a result, we would like to point out that there will no longer be a currently valid gross price list available in the download area of our website. Existing net price agreements also lose their validity with immediate effect. We would therefore like to ask you to check our order confirmations for pricing and delivery time. Alternatively, you can of course, also request an offer in advance.

Unfortunately, at the moment we see no other way to counteract this very difficult situation.

For further information please contact us at any time.

We thank you for your understanding and look forward to our continued positive cooperation.
Team Müllenbach.

Duncan Trett
(Managing Director)
